

LEGAL SPECIALIST

The NJ Board of Public Utilities requires the services of a seasoned Federal Energy Regulatory Commission (FERC) employee, preferably from an accredited law school, to serve as a Legal Specialist for the NJ Board of Public Utilities. The candidate should be familiar with the administrative processes at the FERC, and conversant with electric issues as well as electric market power issues raised at the FERC. Candidate should have experience working with or at the FERC, which includes filing and processing petitions at hearings and other administrative proceedings, including settlements; candidates should have a working knowledge of PJM and its interrelationship with FERC and its member states and stakeholders, as well as PJM's responsibilities as Regional Transmission Operator ("RTO"); candidates must have ability to work with the NJ Board of Public Utilities' staff and the Office of the Attorney General as to the legal processes and standards, and the development of strategies consistent with FERC orders, practices and procedures.

Interested candidates should submit resumes to Chicqueta Britton-Nutt, Director of Administration, NJ Board of Public Utilities, 8th Floor, Newark, NJ 07102, or via e-mail to chicqueta.britton-nutt@bpu.state.nj.us.
